

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Abraham Lincoln

These are wonderful, juicy, and excellent flavored tomatoes, averaging 6-10 oz. Interiors are deep dark red. They are smooth, crack free and sweet. Ideal for ketchup, juice, or slicing. Indet. 85 days

QTY _____ Amish Paste

Dates back to the turn of the century with the Amish in Wisconsin, and is often called the best for sauces and canning. Its deep red fruits are large for canning types (about 8 oz.), with "real tomato" flavor. Not overly acidic. Indet. 74 days

QTY _____ Andrew Rahart's Jumbo Red

These brilliant, scarlet red beefsteaks weigh in at 12 to 16 ounces. This is the kind of delicious, juicy tomato to eat right off the vine. Sturdy vines with good disease resistance bear very abundantly. Very meaty and brimming with rich robust flavor that will delight your taste buds! Indeterminate. - 92 days.

QTY _____ Anna Russian

An heirloom oxheart variety from Brenda Hillenius, of Oregon, who got from her grandfather, Kenneth Wilcox, who received seeds from a Russian immigrant. An excellent, gorgeous tomato. Early maturing for a heart-shaped tomato, the large, visually beautiful, pink-red fruit normally weighs about 1 lb. Superb rich old fashioned tomato flavors with lots of juice. Indeterminate. 70 days.

QTY _____ Aunt Ginny's Purple

This heirloom beefsteak variety has flavor so excellent and rich that some folks claim it is equal to or better than Brandywine. Deep pink tomatoes weigh 12 to 16 ounces and are mostly smooth with very little cracking. Potato-leaved plants are vigorous and give good yields of these juicy and delicious tomatoes. This is one to plant for flavor. Indeterminate. 75-85 days.

QTY _____ Bear Claw

This pink tomato comes from Ben Quisenberry, tomato collector from Ohio. If you are looking for large, tasty tomatoes, add this one to your list to try. Seed company states that this plant will yield large plants and large tomatoes, one pound or more with excellent taste.

QTY _____ Beefmaster

Okay, I know, it sounds too generic to some of you, but someone requested it who has had great luck with this one. (VFNASt) One of the most popular hybrid beefsteak types. Bright red tomatoes weigh up to 2 lbs. Large yields, fruit, and good tolerance to cracking/splitting. Indeterminate, 80 days.

QTY _____ Believe-It-Or-Not

Seed company boasts this plant will give an exceptional crop of tomatoes that will get up to 2 lbs. Smooth, bright red tomatoes that make for a good all-around garden type. Full flavored, juicy sandwich tomato. Indeterminate 85 days.

QTY _____ Big Zac

This hybrid prize winner was bred by Minnie Zaccaria, a New Jersey gardener who tirelessly sought the perfect cross-pollination of two heirlooms, finally creating this enormous tomato with fruits that are consistently a lb each and can weigh in at 4 to 6 lbs. An excellent tomato in every respect - meaty and delicious, very disease resistant. Indeterminate, 80 days.

QTY _____ Bloody Butcher

Very early and high yielding variety. Great full tomato flavor and exceptional dark red color inside and out. Fruits are borne in clusters and average 4 ounces on a sturdy potato leaf plant. Indeterminate. 65-70 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Bradley

This is a semi-determinate variety with compact, bushy plants. Plant is disease resistant to include Fusarium Wilt. This is a good producer, with a very large crop ripening at the same time making it an excellent variety for canning and freezing. Expect dark pink fruits that are 7-10 ounces with the sought after old-fashioned flavor. This is a farmer's market favorite in Southern regions. SEMI-DETERMINATE, 76 days.

QTY _____ Brandywine, Suddath's Strain

Mrs. Sudduth of TN gave seeds said to be in her family for 100 years, to tomato seedsman, Ben Quisenberry of Ohio. Prolific potato leaf plant producing 1-2 lb. large, pink fruit. This is a strain many believe to be that of the original Brandywine. Excellent flavor! Very large crops that can tend to slow down in the Summer heat. Plant this one for the flavor. A good tomato grower will pair these with more heat tolerant, prolific varieties for full season tomatoes. Indeterminate. 85 days.

QTY _____ Caspian Pink

This tomato has beaten Brandywine in taste tests! Heirloom Caspian Pink was originally grown in Russia in the area between the Caspian and Black Seas. Frequently compared to Brandywine in taste with a longer season. Indeterminate. 80 days.

QTY _____ Country Taste

Seed company promises "real tomato flavor" in this hybrid tomato. High yields of deep red beefsteaks weighing up to a pound. Great for off the vine eating. Indeterminate. 70 days.

QTY _____ Cuostralee

A French beefsteak heirloom that produces heavy quantities of huge (1-2 lb.), red, blemish-free fruits that have intense, balanced flavors. Shoulders are slightly ribbed, and fruits are typically 4 inches across. Indeterminate. 85 days.

QTY _____ Costoluto Genovese

Italian heirloom type. Large, deep-red, juicy tomatoes are pretty and deeply ribbed but fully flavored. This is a boat shaped tomato. This variety is hearty and does well in hot weather, but continues to produce even when the weather turns cool. Ind. 78 days.

QTY _____ Delicious

Huge red fruit is smooth, nearly solid and often weighs more than 2 lbs. Excellent flavor, tiny seed cavities, and very little cracking. This is the variety that holds the world record for the largest tomato ever grown. Set in 1986 with a giant 7 lb 12 oz fruit! Ind. 77 days.

QTY _____ Dona

Open pollinated version of the wonderful French gourmet hybrid tomato "Dona". Heavy crop of beautiful, smooth, slightly flattened, tennis-ball size, 4-6 oz. globes. Fruits are said to be "perfectly balanced flavor" and deep red in color. Good disease resistance. Indeterminate. 70 days.

QTY _____ Druzba

Bulgarian heirloom getting recent attention. Deep red globes, 8-16 oz., pack a good taste. High yields of uniformly blemish free fruits, tolerant of diseases. This is a main-crop sort of tomato. Of Bulgarian origins, the word "Druzba" means "friendship". Ind. 80 days.

QTY _____ Early Giant - Tomato Girl's FAVORITE Tomato.

Hybrid. Height 6-8 foot. Early crops of large, smooth, bright scarlet fruits of finest quality. Vines display hybrid vigor, are large, have good disease tolerance and bear until frost. Excellent interior color and fine flavor. I still get people saying that this is the best tomato they have ever had....I don't know if it is the TN soil, or what?! People that don't even like tomatoes (Yes, I have met a few), say this tomato is great! Indet. 60 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Eernie's Plump

This 8-12 oz. tomato comes highly recommended from my seed source. "Extreme producer" that "cooks down to the reddest, richest, flavorful sauce ever!" If it cooks that nice, I am sure it is excellent straight off the vine. Indet. 80 days.

QTY _____ German Johnson

This is a longtime favorite in the Mid-Atlantic and Southeast. It is one of the parent lines of Mortgage Lifter. This plant's vigorous potato leaf vines produce mild, meaty, 12 to 24 oz. fruits with pink skins and yellow shoulders. Good yield as well. Indeterminate, 80 days.

QTY _____ German Pink

Potato leaf plants produce large 1-2 pound fruits. These are meaty with few seeds making them excellent for canning or freezing. Seed company promises excellent yields and taste. Indeterminate 85 days.

QTY _____ German Red Strawberry

German heirloom. Red fruits averaging 10 ounces, look like very large strawberries. They are very meaty with few seeds and little juice yet big taste. Fantastic for saucing or slicing. Indeterminate. 80 days.

QTY _____ Giant Belgium

This is another for the big tomato search! Huge fruits average 1-2 lbs. and have weighed in at nearly 5 lbs. Very dark pink fruits have smooth blossom ends and medium ribbing on the shoulders. Low acid, mild flavor. Indeterminate 82-90 days.

QTY _____ Giant Tree

How could I resist a tomato type with the word "tree" in its name? Seed company boasts of "vigorous 10 to 18 ft. vines with strong stems and heavy thick leaves". Dark pink/red fruits with few seeds weighing in at 1 to 2 pounds. Indet. 80-90 days.

QTY _____ Gigantesque

This is another one to try if you are looking for the BIG tomato. Orangish/ red fruit with a contrasting pink interior. Very few seeds, and little gel, make this a meaty tomato. Seed company describes this tomato as having "monster" average fruit "close to 2 pounds" with "super taste".

QTY _____ God Love

A very productive heirloom, 1 X 2 inch, pink-plum with good tomato flavor. Customers that like this tomato, appreciate it for its early and steady fruit. The fruit is meaty and became a staple to our salsa despite drought conditions. Drought made it the size of a large, oblate cherry, however, under ideal conditions it will be a small paste type. This is one that we know to be the "first", AND the "last", AND very forgiving to its caretaker. This type grows nicely in a container. Indeterminate. 75 days.

QTY _____ Goliath

Totally Tomatoes exclusive! Smooth bright red fruits averaging 10 – 15 oz. Good flavor. Tall vigorous plants produce abundantly. Modern disease resistance. (VFFNTASt) Indeterminate, 65 days.

QTY _____ Heinz 1439

(VFA) This is a determinate hybrid variety. It is a bit generic sounding for most heirloom tomato growers. However, this is going to be a trial for 2008 to try a commercial type tomato grown by Heinz Company. Maybe we should have also tried a Campbell's type? Let's find out if this type is very tasty or like some of our tasteless winter commercial purchases from our local grocery. Seed company states that it was "developed especially for the best ketchup, purees, and sauces". Smooth, slightly flattened 6 oz. globes. Good resistance to disease and cracking/splitting.

DETERMINATE, 80 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Italian Tree Tomato

“Tree”? I just couldn’t resist! Oh gees....seed company promises vines that “can grow to 15-feet” with many, many “meaty, 1-2 pound, 4-5” red tomatoes with superior sweet flavors perfectly balanced with just the right amount of acid”. Some sort of trellis or cage recommended as this plant can bear bushels of all purpose fruit. Ind. 85 days.

QTY _____ Julia Child

Open-pollinated, heirloom. The tall potato-leaf plant produces lots of 4 inch, deep pink, lightly fluted, beefsteak fruits that have the kind of robust tomato flavors and firm, juicy flesh that invites tomato feasting and seed-saving. Indeterminate, 78 days.

QTY _____ Jumbo Roma

Extremely prolific, “gigantic red meaty” roma type. “Jumbo Roma” sounds like it would be a great tomato for canners, doesn’t it? Indet. 90 days

QTY _____ Marianna’s Peace

This is a pink heirloom that originated in Czechoslovakia. Seeds were brought to America during WW2. Potato leaf variety producing moderate yields of 1-2 lb. beautiful, pink beefsteaks. Dense, creamy, sweet flesh with rich, complex, old tomato flavors. Great gift for the tomato lover. Indeterminate. 85 days.

QTY _____ Mexico

Brought to the U.S. by a Mexican family living in the Midwest. Regular leaf plant yielding huge sets of 1 lb., pink with good acid and very sweet flavors. I have to admit, I just picked it for 2007 because I like that song by James Taylor, but hey, I got votes for it for 2008! Indeterminate. 80 days

QTY _____ Money Maker

Old English heirloom. Red 4-6 oz. globes in clusters 5-10 fruits. This variety grows well in hot humid climates and greenhouses, sets in most any weather. Indeterminate.

QTY _____ Mortgage Lifter

Also called Radiator Charlie as the whole story goes. I think this man “who sold these plants to pay off the mortgage on his house”, is one of the best known heirloom tomato stories. Longtime favorite with good yields of very large, smooth, pink-skinned fruits even in droughts. Meaty with few seeds. Very mild, delectable, sweet flavor. Indet. 85

QTY _____ Mr. Underwoods’s Pink German Giant

This is another big one! Fantastic, immense, highly ribbed, oblong beefsteaks with 3 lbs. not uncommon. Very dense and meaty with few seeds. Indeterminate. 90 days

QTY _____ Mule Team

Heirloom saved by generations of gardeners and reintroduced because of its endurance qualities: vigorous fruit set, round, baseball-sized globes that weigh approximately 8 oz, with a sweet, mild flavor. Meaty, textured fruits are produced continuously right up until frost on sturdy plants. Good “main crop”, all purpose tomato, with Good disease and heat resistance. Indet. 85 days.

QTY _____ Omar’s Lebanese

Another big one to try! Huge, somewhat irregular, pink fruit that can consistently grow 1-2 lbs. Taste is described as “superb, sweet, and perfect tomato taste”. Excellent yield. Indeterminate, 80 days.

QTY _____ Pink Accordion

This is a very unique tomato. Large pink fruit is ruffled like an accordion. It almost looks like a squash type. Great for markets! This tomato is semi-hollow so it would make an excellent stuffer. Flavor is described by the seed company to be sweet and mild.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Pruden's Purple

Heirloom variety on potato leaf plants. Dark pink fruits are early although they average 10-16 oz. Taste has been said to be comparable to Brandywine. Indeterminate 75 days.

QTY _____ Red Brandywine

Scarlet-red, version of the typically pink Brandywine. Indeterminate. 90-100 days

QTY _____ Richardson Tomato

This is another "monster". If your looking for the biggest bragging tomato, give this one a try. Juicy and meaty fruit. One sliced tomato will fill up a 18" platter.

Indet. 85 days#

QTY _____ Rutgers Heirloom

All-purpose variety, great for canning. Bright red fruits averaging 7 oz. Old time favorite with full flavor. Disease resistant. Indeterminate, 75 days.

QTY _____ San Marzano

Bright red, almost rectangular, fruits that grow in large clusters. They average 1 1/2" wide by 3 1/2" long. This paste type has an extra high solid content perfect for canning and saucing. They keep well on and off the vine. Indeterminate, 80 days.

QTY _____ Sioux, Super

This is Super Sioux, the improved version of "Sioux". You must try this one if you get the heat of the South! 4-6 oz. smooth fruits are bright scarlet red with rich acid flavor. Ind. 75 days

QTY _____ Solar Fire

(VFFFSt) This is a hybrid type that will take the heat, humidity, and wet climates! This tomato was developed by researchers at the University of Florida. Fruits are glossy red, crack free and average 9 to 10 oz., and best used for fresh eating. Compact plants have high yields, very good disease resistance, and also exhibit tolerance to fruit soft rot. DETERMINATE, 72 days.

QTY _____ Soldacki

Heirloom variety from Poland. This tomato is memorable for its low acid and intensely sweet flavored dark pink fruits. Tomatoes have medium ribbing almost throughout the whole outside of the tomato. They are slightly flattened in shape, and weigh about a pound. Firm flesh inside thin skin. Indeterminate. 75 days.

QTY _____ Supersteak

This is the other hybrid that sounds a little generic for many of you, grown by request for someone who has had great luck with them. (I may taunt it a bit this year, but we MAY really like it?) This is Burpee's widely adapted Supersteak. It has good disease resistance. Smooth, round, red, large fruits. Indeterminate, 80 days.

QTY _____ Ugly

Strong, vigorous plants stay a manageable size and produce a heavy crop of 12 to 16 ounce extremely ribbed beefsteak-shaped fruit with wonderful, old-fashioned tomato flavor. This variety is early and productive and it keeps well after harvest. Indeterminate. 75 days.

QTY _____ Ultimate Giant

This is a big one for the bragger in you! This one has been shown to produce a tomato 9 inches across when cropping all but one tomato per plant. Otherwise, expect your tomatoes to be 4-5 inches on average. No info on its flavor. Indeterminate, 88 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Variegated

Now I ordered this one because it is described as a “showy heirloom” with “attractive variegated foliage”. I have some “babies” now and they aren’t variegated, however, they are very small. Maybe it is something that they will grow into? This heirloom is originally from Ireland. The seed company boasts, “Fragrant plants look pretty when trellised with clusters of 2” fruits.” An early type producing fruits all season long. Indeterminate, 70-75 days.

QTY _____ Voyage

This is one of the oddest red tomatoes ever. This is one fruit that is covered in lumps that you can twist off individually and eat like cherry tomatoes. It looks like a ball of grapes, but it is one fruit. Very prolific all season plant. Indeterminate.

QTY _____ Wanda’s Potato Leaf

Pinkish-red 1 lb or more fruits. Blemish free, smooth shape. Excellent flavor. Indet. 75 days.

QTY _____ Watermelon Beefsteak

Heirloom from the 1800’s. Fruits are pink skinned with purplish-red flesh and an oblong, yet traditional beefsteak, shape. These guys weigh in at 2 lbs. or more. Very mild, with “good flavor”. Indeterminate, 75 days.

QTY _____ Wolford’s Wonder

Seeds from this heirloom variety came from a Big Tomato contest winner grown by Max Wolford. Produces large, firm, heart-shaped, 4 X 5 inch fruits that have thick, pink-red skins, but few seeds. Exceptionally juicy and very tasty. Indeterminate. 90 days.

BI - COLORS

QTY _____ Ananas Noire

This variety, also called Black Pineapple, was developed by a horticulturist from Belgium. On the smooth outside, this tomato wears green, yellow, and purple. The inside flesh is bright green with deep red streaks. Fruits weigh about 1 ½ lbs. and are abundant. Seed company says it is “sweet, smoky, with a hint of citrus”. If you like Sugar Snack cherries, you will also like this tomato. It is exceptionally sweet as though it was injected with sugar. This is another tomato that young children will adore!

QTY _____ Chocolate Stripes

This is another boat shaped, u-shaped tomato. Its shape is similar to Purple Calabash. Plants yield a plentiful crop of 3-4 inch, mahogany colored fruit with dark, olive green-stripping. Seed company says that these fruits have a “delicious, complex, rich, sweet, earthy tomato flavor” with makes this tomato a “black” by looks and taste. So your neighbor is onto you and how you grow your black tomatoes? How about a black zebra, striped tomato now?!!! Indeterminate, 79 days.

QTY _____ Mister Stripey (Tigerella)

Another early tomato in the garden! These cute 2” striped charms are bright red with orange stripes. These fruits are tangy and meaty. The plants show good disease resistance and uniform production all season. This is a widely known heirloom that originated in England. Indeterminate, 76 days.

QTY _____ Speckled Roman

This is a cross of Antique Roman and Banana Legs. Orange-red, 3” wide by 5” long fruits are a paste-type marked by irregular yellow stripes. Meaty fruits have hearty, “real tomato” flavor and almost no seeds. It is not a very large producer, but many people really like this one. One bite is sure to make it one of your favorites! Indet. 85 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Vintage Wine

One of the very few pastel-hued tomatoes. A favorite of gourmet grocers, with attractive, 1½ lb., pale pink fruits set off by golden stripes. This tomato has a very mild flavor, that is still elegant, sweet, and very tasty. Tall, plants with potato-leaved foliage. Indeterminate. - 85 days.

“BLACKS”

QTY _____ Black

Russian heirloom. Compact plants bear plenty of wonderfully rich, dark mahogany-brown tomatoes that average about 4 ounces. Fruit is smooth and somewhat elongated with a pointed tip; in fact, this variety is what some gardeners grew as Black Prince years ago. Black tomatoes have a delicious blend of sugar and acid and a distinctive, complex flavor that is to be savored. Some folks say this variety is one of the best-tasting black tomatoes and prefer it also for its nice, medium size. Indeterminate. 80-85 days.

QTY _____ Black Ethiopian

Gorgeous bronze to brownish red plum shaped 4 oz. fruits. Plants grow quite large and are very productive. Tremendously rich and sweet. Fantastic saucer & salad type. Indet...80 days

QTY _____ Black Krim

Heirloom from Russia producing dark red/dusty purple fruits. Taste is said to have a “hint of saltiness”. These are prone to cracking.
80 days.

QTY _____ Black Prince

Heirloom tomato originally from Russia. These deep garnet oval 2-inch (2-3 oz.) slicers are full of juice and incredibly rich fruity flavors. The small blemish-free fruits have rich green dark interiors.
Indeterminate. 70-90 days.

QTY _____ Blue

Very productive. Small beefsteaks are dark purple brown with green shoulders. Exceptional rich flavor. This is a very rare potato leaf plant.
DETERMINATE, 80 days

QTY _____ Carbon

This is among the darkest of the “black” tomatoes. Its flavor is exceptionally rich yet sweet. Medium to large, 8 to 12 oz. tomatoes are flattened round and smooth, without the cracking or blemishing that seems to plague some black tomatoes. They are dark purplish-brown on the outside with a deep brick-red interior. Indeterminate. 80 days.

QTY _____ Cherokee Purple

Pre 1890, Indian heirloom of “many colors”. Very productive plants set out 10-12 oz. dusky pink-purplish fruits, with dark brick colored interiors and green shoulders. This is a favorite among many heirloom gardeners. Exhibits tolerance to mild drought, cracking/splitting, and common diseases. Indeterminate 80 days.

QTY _____ Chocolate Amazon

This beefsteak tomato has a even, chocolate, brown hue over a pink flesh. The shoulders resemble Cherokee Purple in that is a bit darker at the shoulders with the dusty color and a bit of green. This tomato is one to plant not just for its color, but its taste. Although it is new for us, the seed company says its fruit are near a pound, “prolific”, and have a “distinct wine-y, rich taste” that is “fabulous”.

QTY _____ Noir de Crimee

Heirloom from Russia. Sweet black taste in a medium sized, brownish, maroon/ purple fruit. This is one that has gotten recent attention in tomato circles. Indeterminate 80 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Paul Robeson

Seed for this Russian heirloom was made available by Marina Danilenko, a Moscow seedswoman. This favorite tomato was named after the operatic artist who won acclaim as an advocate of equal rights for Blacks. His artistry was admired worldwide, especially in the Soviet Union. This "black" beefsteak tomato is slightly flattened, round, and grows to 4 inches. It's deep, rich colors stand it apart from others....a dusky, dark-red, with dark-green shoulders, and red flesh in it's center. Very flavorful fruits with luscious, earthy flavors and good acid/sweet balance. Indeterminate. 74 days.

QTY _____ Purple Calabash

A beautiful, drought tolerant variety producing small to medium (2½ to 3 inch), flat, deeply ruffled, chocolate-brown to deep purple fruit. (Mine were u-shaped, boat shaped and large, but very, very tasty) Intensely rich, almost wine-like flavor. Crack resistant and stores well. Indeterminate. 85 days.

QTY _____ Sarah Black

Okay, I have compared descriptions from everyone and these are "pretty" and "attractive" by everyone's standards! Purplish brown fruit that is smooth and blemish free. Rich and intense black tomato taste. You will hear more and more of this black type. Indeterminate, 85 days.

GREENS

QTY _____ Aunt Ruby's German Green

A great heirloom from Ruby Arnold of Greenville, TN. Beefsteak fruits, 5" by 4" deep, weigh one pound or more. These fruits may have a slightly pink end, but are otherwise very green when ripe. When they are soft to the touch....and squeeze just like a red one does.....they are ready to pick. Indeterminate. 80 days.

QTY _____ Emerald Evergreen

This tomato is still green when ripe. You have to squeeze it to tell if it is ripe. Mild, delicious flavor and medium to large size make these solid beefsteak fruit good for slicing. Indeterminate. 72 days

QTY _____ Green Grape

Imagine vines loaded with clusters of green "tomato grapes" with a zippy sweet-tart taste. This fabulous variety will be a real conversation piece with all who see and taste it! SEMI-DETERMINATE. 70days

QTY _____ Green Zebra

Green with light green/yellow stripes...these add a very unique color to dishes and salads. Fruits are 1 ½" to 2 ½" and tangy. Popular heirloom. Indeterminate. 75 days.

QTY _____ Tomatillo Verde

A widely known variety of tomatillo. Richly flavored deep green fruit with huge yields.

ORANGE

QTY _____ Dad's Sunset

If you are looking for a nice orange, this is one of the new ones. I am interested to see how it compares to the others. Seed company says it is the "perfect orange tomato" and "one of the best flavored tomatoes we have tried". This is a large, 10 oz. tomato. Indeterminate 90 days.

QTY _____ Juane Flamme

Beautiful apricot-shaped heirloom from France. Great for drying, retains deep orange color. Excellent flavor. Very productive, fruits borne in clusters and weigh 2-3 ounces, about the size of a large apricot. Indeterminate. 70-80 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Orange Oxheart

Bright orange heart shape fruits characteristic of oxhearts. Great canning prospect as it is meaty with few seeds. Seed company highly recommends its "richly superior" flavor. This is one of the new oranges that I have for everyone to try as it came highly recommended to me. Indet. 90 days

QTY _____ Persimmon

Beautiful, golden-orange tomatoes have one of the best flavors of all the orange tomatoes. Average 5 inches in diameter and between 1 2 lbs., quite meaty with few seeds. Vigorous plants bear well. Indeterminate. 80 days.

WHITE

QTY _____ White Tomesol

2007: Beefsteak that is supposed to be truly white! This is the first year.....we will see....

2008: Back by request!!! Cream colored fruit are smooth and weigh in around 8 oz. Seed company states that it is one of the best tasting tomatoes being both sweet and rich. Heavy yields. Indeterminate.

YELLOW

QTY _____ Hawaiian Pineapple

Large, golden-orange heirloom beefsteak with fruit that grows up to 1½ lbs. When fruit is ripe it has a luscious, very rich, sweet pineapple-like flavor. Indeterminate. 93 days

QTY _____ Hopkins

This unique variety "haunts" from the gardens of the Edgar Allen Poe estate. Heavy producers of very sweet, bright yellow golf ball sized fruit.

Indet. 75 days.

QTY _____ Hugh's

Heirloom variety from Indiana in the 1940's. Tall, heavy plants grow very large, 1-2 lb., beefsteak tomatoes that are pale yellow, thin-skinned, with a touch of pink on the blossom end. They are very meaty, and delicious seemingly bursting with summer sweetness. Truly one of the absolute best yellows.

Indeterminate. 85 days.

QTY _____ Transparent Yellow

Golf ball size very pale yellow, almost transparent fruit. Skin is described by the seed company to be "slightly sticky, fuzzy peach-like, and when squeezed, it feels like a gummy bear". Prolific, disease resistant vines set these fruity little tomatoes with clear gel inside. Indeterminate.

QTY _____ Yellow Perfection- One of Tomatogirl's favorites

This potato leaf heirloom originally from an old British seed company produces bright yellow golf ball sized, thin skinned, tangy, and delicious fruits. They are very unique in taste! Indeterminate. 75 days.

Mini-Marble Salad Mix

Cherries to sprinkle over your summer salads.

QTY _____ Beam's Yellow Pear - YELLOW

This type was our select yellow pear as it has been a winner in many taste tests of yellow pear types.

Endless supply of bright gold/yellow 1½ inch pear tomatoes with great taste. Ideal for salads.

Indeterminate. 70-80 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Black Cherry- BLACK

Perfectly round cherries on lush foliage. These are a dusty, pretty dark rose/purple, large cherry variety. Very nice contrast to any salad tomato, taste-wise and looks to boot! I thought they were a little fruity, or maybe it was their color that made me think of purple grapes? Indeterminate, 65 days.

QTY _____ Garden Peach - YELLOW

Light yellow fruits that have a fuzz to them resembling mini peaches. Some have a light pink blush when fully ripe. Plants are loaded with fruits that withstand cracking.

QTY _____ Golden Pearl - YELLOW

Tiny golden pea size cherries grow in clusters and are so sweet and fruity. Super salad topper. Indeterminate. 60 days

QTY _____ Isis Candy – RED AND YELLOW

Gorgeous fruits are marbled with orange and red. Rich flavor is a complex blend of sweetness and fruitiness. Each fruit has a spectacular cat's eye starburst on the blossom end. Plants are loaded with ¾" - 1½" fruits on short trusses in double rows of 6-8. Indeterminate. 70-80 days.

QTY _____ Matt's Wild Cherry – RED - Tomato Girl's favorite.

This is a small red mini-marble cherry is so incredibly tasty. Everyone I know agrees that this tomato has "real tomato flavor". You just have to try it to believe it. Grows extremely tall and/or wide. Ind. 65 days

QTY _____ Mirabell - ORANGE

Marble size orange cherries that are exceptionally fruity and sweet. Plants grow very tall and produce until frosts. Team up with Matt's Wild Cherry for a great salad topper. Indeterminate. 75 days

QTY _____ Mirabelle Blanche – ALMOST WHITE

Lovely cream colored large salad size cherries with pale rose blushing. They are a type that many gardeners ask for by name. Sweet meat with tangy gel. Indet.80 days..

QTY _____ Sugar Snack - RED

Sweet red cherry hybrid tomatoes are delicious from the first early harvest up to the first frost. Vigorous plants have heavy foliage to protect fruit from sunburn and bear long clusters with an incredible number of tomatoes. Higher yields than other varieties, and fruit can hold well on the vine. These extra-sweet treats are delicious for snacking right off the vine as well as uses in salads and other dishes. This tomato is soooooo sweet that it tastes like it was injected with sugar or rolled in sugar. Some love it and some hate it!!! This is an absolute must for babies and toddlers who have been known to absolutely love this variety! Indeterminate. 65 days.

QTY _____ Super Sweet 100 – RED

This is a hybrid, improved version of the original Sweet 100 with better sugar/acid balance, increased disease resistance, and less chance of cracking/splitting. High yield as fruits hang in long clusters of these 1", 1 oz. bright red cherries. Staked/caged plants will hold 100 or more fruits in long strands. Indeterminate. 65 days.

QTY _____ Sweet Baby Girl Hybrid - RED

Seed company calls this "The best variety in the world for home growing", with incredible sets of luscious red fruits in long clusters on compact plants. Crack-resistant bright red fruits that weigh less than 1 oz. and keep well after harvest. Resists Tobacco Mosaic Virus. Indeterminate. 65 days.

QTY _____ Tommy Toes – RED

Extremely vigorous plant producing large yields of 1" size cherries. Superb flavor promised by the supplier. We decided to try this one as a lot of "old timers" say they grew them long ago. I am glad to see it offered. Indeterminate, 70 days.

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

QTY _____ Totem (patio) - RED

This hybrid tomato plant will be great for containers. It is a compact plant perfect for patios, window boxes, or how about a table centerpiece to simply pick from? Totem has more fruit than foliage on this 18" to 30" tall plant. Seed company promises "flavorful fruits produced in abundance – up to 10 lbs. per plant".

DETERMINATE, 70 days.

QTY _____ White Currant - WHITE

These are definitely comparable to Matt's Wild Cherry, only they are of the palest yellow, almost white. They are another wild type with tiny shape and lots of tomato flavor that has a sweet, tangy flavor as its name suits it well. This is another heirloom that will re-seed itself if you plant it where you can identify its "volunteers" later. If you like Matt's Wild Cherry, try this one as well! Indet.

PEPPERS

QTY _____ Bell (green) – Big Bertha

We grew these last year and they were pretty and huge! These are mostly 4-lobed, green fruits that mature up to a full 7" long by 3 1/2" across. These will turn deep green to red. Plants will continue to produce all season. Resists Tobacco Mosaic Virus. Plants grow 25" to 30" tall. 70 days.

QTY _____ Bell (yellow) – Super Heavyweight

Seed company boasts that this "jumbo bell is such a handful, you may need two hands to pick one up!" Doesn't that sound cool? Lots of people wanted a yellow one, so lets try the BIG one! Fruits can weigh up to 9 oz. Thick walled and blocky, promising to be sweet and maintain a crunchy texture. Ripens from green to gold. If you just want a huge GREEN one, just pick it early. Low in calories and high in Vitamin C. This would also make a great BIG stuffer. 77 days.

QTY _____ Bell (orange/red) – Valencia

These peppers mature to a vibrant pumpkin-orange. Very colorful addition to any dish. Blocky fruits average 4 1/2" across. 72 days.

QTY _____ Bell (black) - Mavras

Awesome looking glossy black sweet bell pepper. Blocky fruits are thick-walled and begin to develop a shiny black-to-deep purple color while still immature. This is an arly bell pepper that will be a dramatic addition to any dish! Resistant to Tobacco Mosaic Virus. 75 days.

QTY _____ Inferno Hot Banana

Early high yielder produces big, 8" by 1 1/2 inch fruits with outstanding flavor – they have outstanding flavor, however, it is very hot compared to most hot banannas. Matures yellow to red. 60 days.

QTY _____ Hungarian Yellow Wax Hot – (Banana type)

I ordered this one to try to get a banana type that was a bit tamer than the Inferno...the kind most of us are used to. 6" long and 1 1/2" wide. Good pickling pepper. Matures from light yellow to bright red. Plants will grow 16" to 24" tall, strong, and upright to produce many all season long. 67 days.

QTY _____ Chili - Hot Goliath Griller Hybrid

These are a chili type that mature green to red and even have a nice purple color in between. Pungent enough to make a great roaster, but mild enough to eat fresh if you like a pepper with a little bite. Smooth fruits measure 5" to 7" long and about 1 1/2" wide. Good yield. Widely adapted with good disease resistance. 70 days.

QTY _____ Chili – Hot Sandia

TOMATOBABYCOMPANY.COM THE-TOMATO-GIRL.COM - ORDER WORKSHEET

Pods average 6 ½” in length and a little over 1 ½” wide. It is one of the hotter long green New Mexico type peppers with a heat level ranging between 5,000 and 7,000 scovilles. (That is as hot as our very, very hot jalapeno!) Very popular market chile in New Mexico. 75 days.

QTY _____ Chili – Nu-Mex Big Jim

This one is in the Guinness Book of World Records as the largest of this chili type. The pods can be up to 12” long and weigh as much as 4 ounces. Medium hot pungency makes them great for chile rellenos and roasting. Great drought and heat tolerance. 80 days.

QTY _____ Jalapeno Fooled You Hybrid

65 days. The scorching heat of most jalapenos makes the distinctive flavor hard to enjoy. Now Fooled You emerges as the perfect pepper for mild sauces, salsa, and stir-fries....not pungent, not hot, but still enormously flavorful. Plants grow 27” tall, bearing loads of large, thick-walled fruits measuring about ¾” wide at the shoulder, maturing from green to red. Yield is enormous!

QTY _____ Jalapeno Goliath Hybrid

65-68 days. At a record-breaking 6000 to 8000 scovilles (30 hotter than the average jalapeno), we suggest you fireproof your kitchen before slicing, stuffing, or grilling these giant 4” beauties. Thick-walled fruits, about 1½ inch across, mature from a dark, glossy green to scarlet red. With this much heat, you’d expect other qualities to be compromised, but the flavor and texture are excellent. Good disease resistance.

QTY _____ Wenk’s Yellow Hot (banana flavor, jalapeno hottness)

This heirloom pepper looks like a yellow jalapeno, 2 to 4 inches long, but tastes more like an extremely hot banana pepper. It is just as hot as a typical jalapeno, although not quite as hot as our Jalapeno Goliath. It is certainly hotter than a banana pepper should be. Fruit is a pearlescent yellow color that matures to orange, then red. Seed company calls them “medium hot”. Thick waxy walled fruit used pickled, cooked or pureed into the pepper vinegar often found on sauerkraut and other PA Dutch dishes. Widely appreciated for its heritage and distinct flavor. 105 days.

QTY _____ Long Thick red Cayenne

72 days. These long, slightly wrinkled, very hot peppers are especially good for pickles, canning and drying. Brilliant, fiery red peppers. Excellent for chili and homemade salsa. Two-celled fruits start out dark green, and then ripen to a bright red color.

QTY _____ Fish Hot pepper

An heirloom considered by many to be the best variety to use when cooking fish and shellfish. Plants grow 18” to 24” with decorative green and purple foliage splashed with white. High yields of very hot, pointed fruits, about 1 1/2” long. The colors range from white fruit with green stripes to orange with brown stripes. You will also get some brilliant reds and some deep purples too. 90 days

QTY _____ Habanera, Chocolate

I had some requests for habanera, so I thought we’d grow a unique color. Seed company promises very high yields of crunchy, 2 ½” fruits with velvety brown inside and out. Of course, this one is extremely hot, but is supposed to be flavorful as well. I believe these are large compared to a typical habanera pepper. Seed company states I will get the right “kick” in stir-fry, salsas, and sauces. 85 days

QTY _____ Pizza Pepper

Pendulous, cone-shaped, 3” to 4” peppers are mildly hot with just enough spark to spice up all kinds of dishes. (These look like a small jalapeno that is about the size of your thumb.) Meaty walls are up to ½ thick. Fruit is hottest when green and grows milder as they mature to red. Plants grow 14” to 18” tall and bear loads of fruits. 80 days.

QTY _____ Bolivian Purple Rainbow

One inch long cone-shaped peppers are very hot. Plants show varying colors of peppers all at the same time. Fruit starts purple, turning yellow, orange, then finally red. Most people growing this plant, grow it for its ornamental qualities. It is unique in that it has 2-3’ tall dark purple foliage.

EGGPLANT

QTY _____ Black Beauty

Ready in 80 days from setting of plants. Fruits are round to globe shaped, large when mature. Plants 2-2 ½ feet tall. Tasty when picked young, about 5" long, and of glossy color. Best in rich, loose soils. Warm temps are needed to grow this crop.

QTY _____ Kumari Sri Lanka

Very early eggplant. Purple fruits with green veins are about the size of a baseball. Extremely prolific plants growing 4 ½ feet tall. Sweet white flesh with very little bitterness.

QTY _____ Arumugam's Tamil Nadu Indian

Medium, nice purple slightly tear dropped shaped fruit. Very prolific bushy plants with purple flowers. Sweet white flesh with very little bitterness. All the seeds are at the bottom of the fruit, making for fine eating and cooking.
